

Sontex is a successful and expanding SME in the field of metrology with headquarters in the Biel region. For 30 years we have been developing, producing and selling devices for the precise metering of energy consumption. We thus support our customers in the efficient use of resources and in saving energy. Our national and international customers are active in the field of building technology and building automation.

**To strengthen our software team, we are looking for a**

## Cloud / DevOps Architect (M/W 100%)

### Your responsibilities
