

Sontex is a successful and expanding SME in the field of metrology with headquarters in the Biel region. For 35 years we have been developing, producing and selling devices for the precise metering of energy consumption. We thus support our customers in the efficient use of resources and in saving energy. Our national and international customers are active in the field of building technology and building automation. To strengthen our software team we are looking for a

Java Software Engineer (m/f 100%)

Your responsibilities

- Designing and developing Windows, Android and web applications, libraries and OSGi components with Java
- Contributing in all phases of the development lifecycle
- Maintain code quality through modern development methods, best practices and test automation
- Prepare and produce releases of software components
- Create and maintain technical documentation

Your profile

- Bachelor/Master's degree in Computer Science/Engineering or similar know-how.
- Strong Java skills with proven experience records.
- Experience developing web-applications with Java using micro service architectures.
- Experience developing user interfaces either for Windows, Android, or web platforms.
- Solution-oriented way of working with high quality standards.
- Able to work under minimal supervision.
- Good knowledge of English and French (minimum B2 level). Knowledge of German is an advantage.
- Experience developing web user interfaces with Angular will be an advantage.
- Experience working with Docker, Kubernetes or Keycloak will be an advantage.
- Experience developing with Maven, Gradle, OSGi, Android or Spring will be an advantage.

What we offer

A collegial team awaits you that wants to achieve a lot with you. It accompanies you closely during the comprehensive introduction to the topic. Modern development tools, methods and frameworks provide interesting and inspiring working environment. International markets, constant growth and innovative products offer you a wide range of tasks. For further questions please contact Mr. Anssi Pulkkinen, Team Leader Software at +41 32 488 30 00.
